

2018 Salmon Spawning Surveys in Johnson Creek Watershed

Reach:	Date:	Surveyors:	Start Time:	End Time:
Weather: Sun / Rain / Overcast / Partly cloudy / Snow Water level: Low, dry / Medium / High / Flood Creek visibility: 1 (Can see bottom of riffles and pools) 2 (Can see bottom of riffles) 3 (Cannot see bottom of riffles and pools)	Field notes: Create one Data Letter Point for each sighting. <u>Each</u> salmon or redd is a single sighting. For example, if you see two live salmon guarding a redd, this counts as <u>three</u> sightings - so create three Data Letter Points, and each would have the same GPS coordinates.			

LOCATION LETTER	Coordinates	Redd or Fish	Live or Carcass	Coho/Chinook/Unknown	Wild/Hatchery/Unknown
Lat: 4 _ . _ _ _ _ _ _ _ _ Long: -12 _ . _ _ _ _ _ _ _ _ <i>Remember to mark & label on reach map</i>		Redd / Fish	Live / Carcass	Coho / Chinook / Unknown	Wild / Hatchery/ Unknown
Location Description (intersection, identifying features, etc.) & Notes (if the fish was alive, what was it doing?):
