

# Accessing Centennial Pond for Dragonfly Monitoring

This is the most challenging pond to access. Centennial pond is on an undeveloped 35-acre property accessed from SE Foster Rd and 172nd. Heading East on Foster, just before you reach 172nd you will see the Pleasant Valley Grange on your left. Across Foster Rd on the South side of the road you will see a fence. Park on the gravel in front of this fence (indicated by the pink arrow). DO NOT park in the grange lot. At the NE end of the fence there is a gap between trees. This is where you enter. Follow the yellow dashed line along the edge of the pond and part of the creek.

More photos on the next page.

Pleasant Valley Grange on the North Side of Foster Road.

Fence across the street from the grange. Park where the the white truck is. Access the pond by going behind the fence indicated by the pink arrow.
