

JCWC Community Science Committee

Thank you for your interest in the Community Science Committee at Johnson Creek Watershed Council. To involve watershed stakeholders in our programs, we've created this volunteer committee for community members, partners, and anyone who loves the watershed to help us grow our program through a community centered approach.

Our goals:

- Reduce participation barriers
- Connect the community to the watershed
- Work together for the health of the watershed

What to expect:

- Meet with staff and other committee members to share ideas - 4 meetings/yr
- Help expand our survey program with the skills that you bring to the committee
- Share needs and participation barriers from your community
- Help lead one survey orientation per year
- 1-2 year volunteer commitment

How to get involved:

- Attend the online info seminar
- [Fill out the inquiry form](#)
- Ask questions - sara@jwc.org or 971-917-4521

Kind regards,

Sara Volk
Community Science and Engagement Manager
